

## **AMENDMENTS TO THE SPECIFICATION**

*In the specification, pages 11 and 12, paragraph [0020], please amend the paragraph as follows:*

10, 40 and 50 server  
11, 21, and 22 communication processing section  
12 content storage section  
13 license storage section  
20, 60, and 70 receiving terminal  
23 presentation processing section  
24 operation section  
25 presentation section  
26 license-corresponding document storage section  
27 license storage section  
28 content storage section  
30 communication path  
121-12n, 281, and 282 contents  
12a startup document  
12b license-corresponding document  
12c sub-licenses  
12d-12f resources  
131-~~13n~~13m licenses

*In the specification, page 18, paragraph [0033], please amend the paragraph as follows:*

View licenses 131-~~13n~~13m stored in a license storage section 13 contain license IDs, usage rules, and key bunches, as exemplified in (a) to (c) of FIG. 7. The license ID is unique information for identifying the view licenses themselves. The usage rules are conditions regarding periods, the numbers of times or the like in a case where contents are made usable by using the view licenses (including a case in which making sub-licenses usable allows indirectly contents to be made usable). The key bunch is a collection of a plurality of decryption keys to actually make contents or sub-licenses usable (that is, to decode encrypted contents or sub-licenses here).
